ACCUBEAM
LASER ENGRAVING & CUTTING

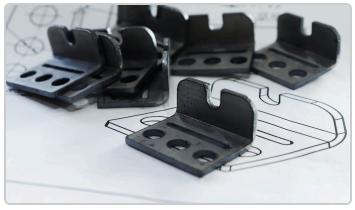

# Auto & Transportation Capabilities

## ABOUT ACCUBEAM

Accubeam precision grinds high-performance brake rotors, resurfaces light rail and monorail brake discs, and makes brackets, skid plates, busbars, panels and certification plates for cars, trucks, buses, trailers and specialty vehicles, from one prototype to production runs.

## CORE CAPABILITIES

- Brake rotor grinding on a 60" Blanchard table
- Laser cut and ground custom rotors
- Light rail, monorail and bus brake disc resurfacing
- Straightening and shimming before grinding
- 6kW fiber laser cutting and press brake forming
- Busbars and battery trays for EV and electrical systems
- Trailer certification and tire information plates

## TYPICAL PARTS

- High-performance and racing brake rotors
- Transit and rail brake discs
- Brackets, mounts and gussets
- Skid plates, guards and heat shields
- Busbars and battery boxes
- Race car and vehicle switch panels
- Weld and check fixture plates

## WHY ACCUBEAM

- Rotors held to your thickness, DTV and runout spec
- Measurement report with each set of transit discs
- Any rotor metal; most are alloy steel
- No minimums and no tooling charges
- First article inspection and material certs
- Fast quoting and fast turnaround; no hard tooling charges
- Made in Sarasota, Florida, since 1999
